We are looking for a RESEARCHER to work in APP group

We are looking for a highly motivated postdoc, M.S. or Ph.D. student to work in a national project aiming at developing **bi-facial solar cells**.

The applicant must hold a **B.S. degree** from one of the following fields:

*Electrical and Electronics Engineering, Physics, Material Science, Mechanical Engineering or Chemical Engineering.*

The applicant is expected to have good understanding of **semiconductor devices** and **solar cells**. Experience in **clean room** processes is a plus.

This is a very competitive project and may require the individual to have flexible working hours, including evenings and weekends as required.

The compensation varies between 2000 and 2800 TL/month depending on the applicant’s degree.

The position will start around **February 2017**.

The interested individuals are kindly asked to provide a set of application material consisting of:

1. A **letter of intent** including details on the nature and duration of personal experience on the indicated fields.
2. A detailed **CV**.
3. **Name, address** and **phone number of two reference persons** or **two recommendation letters** e-mailed directly by the referees.

*Note that the application deadline for Spring 2017 is Jan 3, 2017.*
